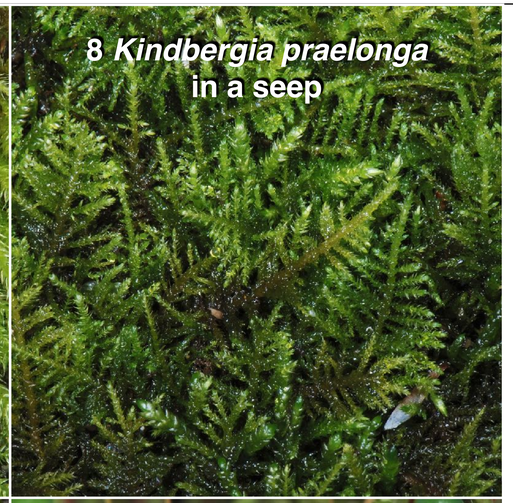
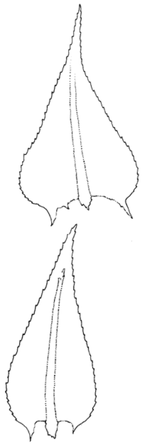
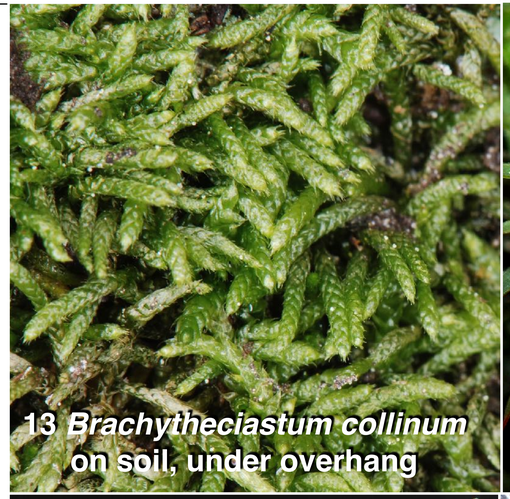
7 *Brachythecium frigidum*
in a seep



8 *Kindbergia praelonga*
in a seep

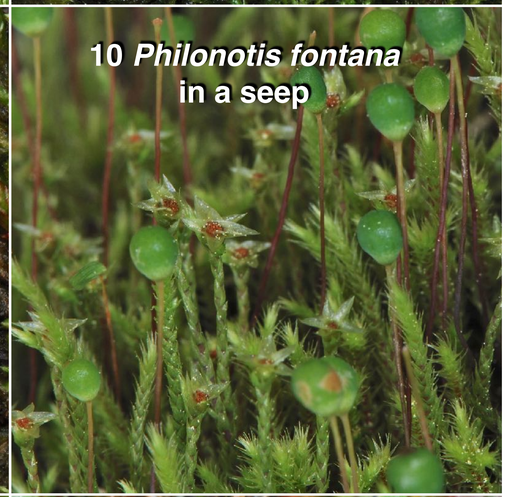




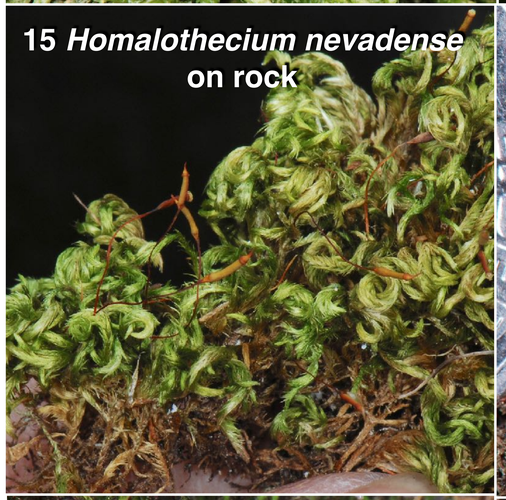
13 *Brachytheciastum collinum*
on soil, under overhang

14 *Meiotrichum lyellii*
on soil

9 *Imbribryum minimum*
on rock in seasonal rivulet



10 *Philonotis fontana*
in a seep

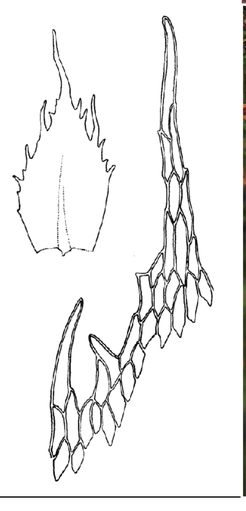


15 *Homalothecium nevadense*
on rock

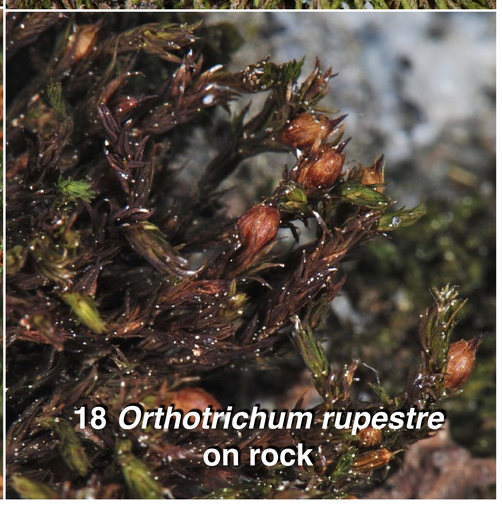
16 *Pterigynandrum filiforme*
on a boulder

11 *Rosulabryum*
on soil bank of stream

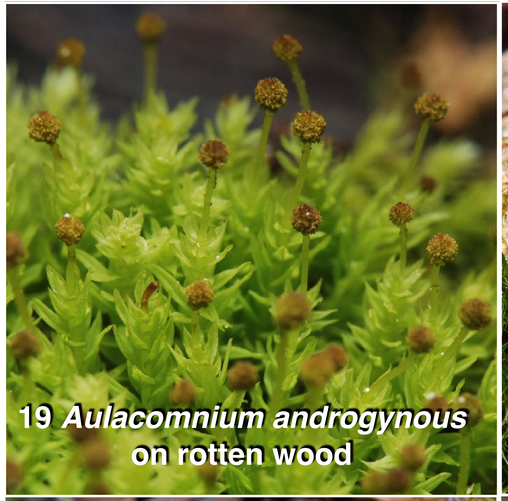
12 *Ptychostomum weigellii*
in a wet meadow



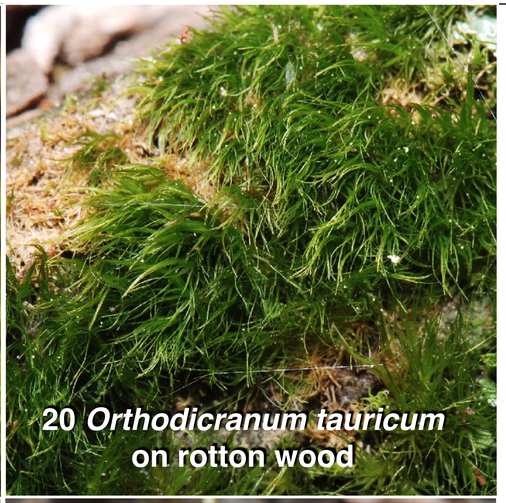
17 *Fabronia pusila*
on ceiling of overhang



18 *Orthotrichum rupestre*
on rock

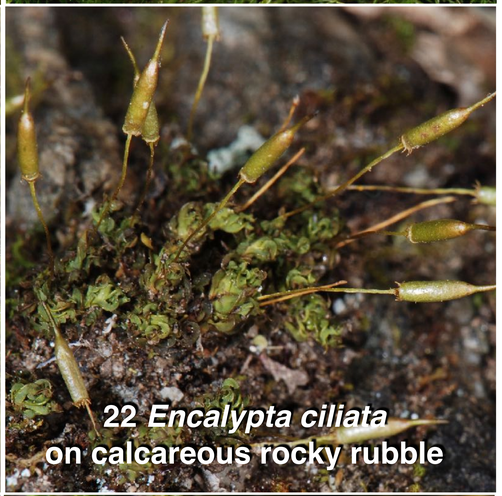


19 *Aulacomnium androgynous*
on rotten wood

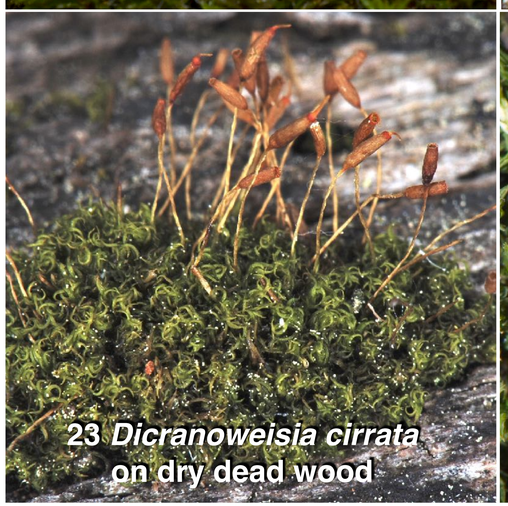


20 *Orthodicranum tauricum*
on rotton wood

21 *Syntrichia*
on logs and boulders



22 *Encalypta ciliata*
on calcareous rocky rubble



23 *Dicranoweisia cirrata*
on dry dead wood

24 *Orthotrichum laevigatum*
on dead log

Bryophytes amid Giant Sequoias

California Native Plant Society Bryophyte Chapter

bryophyte.cnps.org

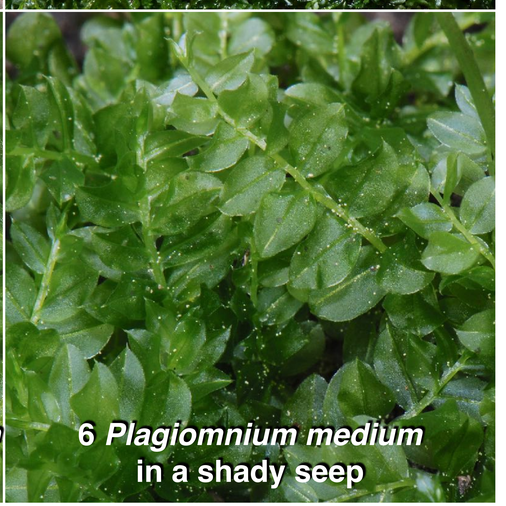
1 *Fontinalis antipyretica*
in a stream

2 *Fontinalis howellii*
in a stream

3 *Fontinalis neomexicana*
in a stream

4 *Chiloscyphus pallescens*
in a stream

5 *Rhizomnium pseudopunctatum*
next to stream



6 *Plagiomnium medium*
in a shady seep
