

## Autumn sneezeweed

*Helenium autumnale*

Photographer: Darlene LaMont

Plant Type: Perennial  
Flower Color: Yellow  
Flowering Time: August to October  
Height: 3 feet  
Width: 3 feet  
Exposure: Sun  
Water Req.: See Comment  
Habitat Value: Butterflies, bees

Deciduous

02

### Comments and Maintenance:

The large and numerous daisy-like, yellow flowers of *Helenium autumnale* can provide welcome color in late summer and autumn when many other blossoms have disappeared. Native to moist places, it requires regular water every 7 days depending on weather conditions. It will slowly form a small colony. Attracts bees and butterflies. Deer resistant.
