

Island Alum Root  
*Heuchera maxima*

Photographer: Darlene LaMont

Plant Type: Perennial Evergreen  
Flower Color: White  
Flowering Time: April to June  
Height: 1 feet  
Width: 1-2 feet  
Exposure: Sun-part shade  
Water Req.: Occasional - once a month or so, depending on temperatures and wind.  
Habitat Value: Hummingbirds

Comments and Maintenance:

One of the largest native alum roots with tall flowering stems of white and pinkish flowers. Tolerates heavy soil and moderate drought. Good for use under oaks.
