

Monkeyflower hybrid  
*Mimulus 'UC Hybrid'*

Photographer: Kathi Dowdakin

Plant Type:	Perennial	Evergreen
Flower Color:	Burnt-orange	
Flowering Time:	May to October	
Height:	2 feet	02
Width:	4 feet	
Exposure:	Sun-part shade	
Water Req.:	Occasional - once a month or so, depending on temperatures and wind.	
Habitat Value:	Hummingbirds, butterflies, bees	

Comments and Maintenance:

Small shrubby plant, covered with showy flowers all summer long. Flowers attract bees, butterflies, as well as hummingbirds. Mimulus should be pinched back in the fall/winter, to encourage new growth and flowers. Plants will not recover from hard pruning. Deer resistant. This variety is very robust and long-lived. Plants adapt well to containers.
