

Monkeyflower hybrid
Mimulus 'Vibrant Red'

Photographer: Kathi Dowdakin

- Plant Type: Perennial Evergreen
- Flower Color: Red
- Flowering Time: May to October
- Height: 2 feet
- Width: 2 feet
- Exposure: Sun-part shade
- Water Req.: Occasional - once a month or so, depending on temperatures and wind.
- Habitat Value: Hummingbirds, butterflies, bees

Comments and Maintenance:

Small shrubby plant, covered with showy flowers all summer long. Flowers attract bees, butterflies, as well as hummingbirds. Mimulus should be pinched back in the fall/winter, to encourage new growth and flowers. Plants will not recover from hard pruning. Deer resistant. Plants adapt well to containers.
