

Pink flowering Currant

Ribes sanguineum var. *glutinosum*

Photographer: Kathi Dowdakin

Plant Type: Shrub

Deciduous

Flower Color: Pink

Flowering Time: February to April

Height: 8 feet

02

Width: 6 feet

Exposure: Sun-part shade

Water Req.: See Comment

Habitat Value: Birds

Comments and Maintenance:

Distinctive for extra long and large drooping fragrant racemes of pink flowers. Best with light shade and little summer water.

Attracts hummingbirds.
