

Catalina perfume
Ribes viburnifolium

Photographer: Charles Webber @

Plant Type: Shrub Evergreen
Flower Color: Red
Flowering Time: January to May
Height: 2-3 feet
Width: 2-3 feet
Exposure: Sun-part shade
Water Req.: See Comment
Habitat Value:

02

Comments and Maintenance:

Clambering shrub with branches that swoop up, then arch over and down. Glossy, round, fragrant, evergreen leaves, with clusters of tiny dark red flowers. Requires part shade and is drought tolerant once established. Adaptable to a variety of soils including heavy clay. Deer resistant
