

Las Pilitas hummingbird sage

Salvia spathacea 'Las Pilitas'

Photographer: Las Pilitas Nursery

Plant Type: Ground Cover Evergreen
Flower Color: Red
Flowering Time: February to July
Height: 1-2 feet
Width: 3-6 feet
Exposure: Shade -lite shade
Water Req.: Occasional - once a month or so, depending on temperatures and wind.
Habitat Value: Hummingbirds, bees

Comments and Maintenance:

Large fuzzy leaves with red flowers. Can be dead headed and lightly pruned in summer. Can be grown in dry shady areas. Attracts bees, birds and butterflies.
