

Stonecrop
Sedum spathulifolium

Photographer: Kathi Dowdakin

Plant Type: Ground cover Evergreen
Flower Color: Yellow-orange - w
Flowering Time: May to July
Height: 0.50 feet
Width: 8 feet
Exposure: Sun-part shade
Water Req.: Occasional - once a month or so, depending on temperatures and wind.

Habitat Value:

Comments and Maintenance:

Great ground cover, container or rock garden plant for a dry area. Bright yellow flowers add interest. Grey green succulent foliage forms rosettes which make it attractive all the time.
