

Catalina perfume  
*Ribes viburnifolium*

Photographer: Josh Williams

Plant Type: Shrub                      Evergreen  
Flower Color: Red  
Flowering Time: January to May  
Height: 2-3 feet  
Width: 2-3 feet  
Exposure: Sun-part shade  
Water Req.: See Comment  
Habitat Value: Birds, butterflies

Comments and Maintenance:

Clambering shrub with branches that swoop up, then arch over and down. Glossy, round, fragrant, evergreen leaves, with clusters of tiny dark red flowers. Requires part shade and is drought tolerant once established. Adaptable to a variety of soils including heavy clay. Deer resistant
